

**Application:**

Calcined Clays and Aluminas

**Collector Model:**

SPJ-64-X4B8

**Air Volume:**

6000 ACFM

**Air-to-Cloth Ratio:**

9.92 to 1

Contact Scientific Dust Collectors for more information. Ask for Application Number 019906.

**Application Notes:**

Harbison-Walker Refractories is the largest refractory brick company in the Western Hemisphere. Material is processed from a Truck Dump Hopper onto a large conveyor belt that processes material received at their plant. This system feeds over 8500 tons of material each month. Previously, they had a cloud of dust in this area all day long as they received material. Scientific Dust Collectors solved their problem.
