

Application:

Tool Steel Grinding

Collector Model:

SPJ-64-X4T8

Air Volume:

9500 ACFM

Air-to-Cloth Ratio:

15.7 to 1

Contact Scientific Dust Collectors for more information. Ask for Application Number 229906.

Application Notes:

When this company outgrew their building and dust collection system, they purchased a Scientific Dust Collector for their new shop. They used a scrubber for many years, but were tired of the unpleasant and costly sludge disposal. Currently, they are collecting from 19 grinders and have the ability to expand to 26 machines. Now the collected particulate is conveniently recycled. The filtering efficiency exceeds 99.9% so the clean air is safely returned to the building.
