

Application:

Wood Dust

Collector Model:

SPJ-120-X4T8

Fabric Collector w/ Top Bag Removal & Walk-In Plenum

Air Volume:

20,000 ACFM

Air-to-Cloth Ratio:

17.6 to 1

Contact Scientific Dust Collectors for more information. Ask for Application Number 299604.

Application Notes:

Maker of product show displays collects dust from numerous woodworking machines and floor sweeps throughout the wood shop section of their new facility. Since their business is projecting a top-notch impression for their customers, they wanted to be sure their own operations were impressive and of the highest quality. A centralized dust collection system was selected for its cost effectiveness and more efficient use of floor space. Filtered air is recirculated back into the facility during the winter months to conserve heated air. In the summer, filtered air is exhausted to the outside.
