

**Application:**

Wood & Miscellaneous Dust

Collector Model:

SPJ-108-X4T8

Air Volume:

16,000 CFM

Air-to-Cloth Ratio:

15.7 : 1

Contact Scientific Dust Collectors for more information. Ask for Application Number 310505.

Application Notes:

Bellcomb Technology in New Hope, MN is a manufacturer of wall mounted custom touch computer screens. In their process they collect wood, plastic and metal dusts used in the manufacture of this computer equipment. They relocated their plant and installed a Scientific Dust Collector to consolidate multiple smaller collectors. The system was installed by Ver-Tech in Minnesota. The customer has operated the unit for over two years. The collector was painted a custom color to match their building. Air is returned back into the plant during the winter months to conserve heat.
