SPJ-84-X4H10

Air Volume:
12,000 CFM

Air-to-Cloth Ratio:
12.1 : 1

Contact Scientific Dust Collectors for more information. Ask for Application Number 091206.

Application Notes:

St. Isidore Asphalt is a large road builder, asphalt and concrete contractor. This unit was originally purchased for collecting a special granite dust and has since been moved to another quarry to collect nuisance dust from crushing operations. One of the main reasons they purchased the unit from Scientific Dust Collectors was our ability to custom build a baghouse to their specifications.
