

Contact Scientific Dust Collectors for more information. Ask for Application Number 130303.

## **Application:**

Laser Table

## **Collector Model:**

LP-3

## **Air Volume:**

1,800 CFM @ 4" W.C.

## **Application Notes:**

A laboratory equipment manufacturer in Michigan installed an LP-3 collector to collect metal fines cut on their new state-of-the art laser machine. The dust collector needed to be located close to the machine and have a small footprint to compliment the heavy duty laser cutting machine. The load is moderate and the two large hopper dust drawers are adequate for the application.
